

# The Middle East Institute's FIRST ANNUAL FUTURES FORUM

October 12-15, 2021

This premier virtual event, featuring leading experts and practitioners in the fields of finance, energy and technology in the U.S. and the Middle East, will examine the major trends and drivers that will shape the Middle East over the next decade. MEI and our media partner Foreign Policy (FP) present conversations, interviews, and interactives with the foremost thinkers today to look ahead at the future of the region, and will highlight new, young leaders as drivers of change. Sponsors of the Forum will be highly visible to the thousands of viewers and participants the event will draw from all over the world.

## AGENDA TOPICS INCLUDE:

**The New Economics** - *The Future of Money; Economic Diversification and Workforce Transformation in the Middle East*

**Powering the Future** - *The Future of Energy; Climate Change - Creating a Future through Adaptation and Resilience*

**High Tech and the Human Future** - *The Future of Cities; The Future of Education and Healthcare*

**The New Defense and Security Landscape** - *Technology Futures in MENA Defense and Security; Cybersecurity and Information Security*
